Property

Value

Manufacturer:FTDI

Product Description:LJIMU

Serial Number Enabled:☒

Auto Generate Serial No:☒

Serial Number:A100HHCL

Serial Number Prefix:A1

Information

USB String Descriptors:

Manufacturer:  
The manufacturer string, default is 'FTDI'.

Product Description:  
The product description, default is 'USB <-> Serial Cable'.

Serial Number:  
The serial number to be programmed into the EEPROM. If the serial number text box is left blank or Auto Generate Serial Number is checked, a unique serial number will be generated for each device. You can specify the first two characters of the generated serial number in the prefix box. Max number of characters is 16.

Note:  
Product Description + Manufacturer + Serial Number cannot be more than 48 characters.

Device Output

Device: 0 [Loc ID:0x18]
